

To Our Valued Customers

Buchner Manufacturing Inc. (BMI) want to help our customers feel safe and secure today and throughout the effects of Covid-19. Much of the business news we read these days paints a bleak picture for Canadian Small and Medium Sized Businesses but at BMI we see hope for these business owners. As one of our loyal customers we would like to partner with you by sharing that sense of hope.

Your future is important and we are here to help you. We believe your business can survive both now and into the future. Although you have immediate needs and long-term goals that impact you, your family, your community, and your business, there are resources to help you. At BMI we are pleased that our Federal and Provincial Governments have offered support and assistance (in the forms of interest free loans, wages subsidies, tax payment deferrals, and others) that can help you manage through the pandemic and be positioned for success in the future. These initiatives from our governments can help you weather the storm and provide you with the resources to relaunch your business when the government lifts its restrictions. We are providing the following links to resources that may help you, your family, and your staff navigate the financial crisis this pandemic has caused. Please use these links to your benefit and if we can assist you in the use of these links please call us at 1-800-461-6455.
